

Baghdad Token (BGDX) - Whitepaper

Introduction & Vision

Baghdad Token (BGDX) is a BEP-20 token launched to bring the spirit of historical Baghdad-known for its advancements in science, trade, and culture-into the Web3 era. Our aim is to build a decentralized ecosystem fostering creativity, community governance, and blockchain-based games and NFTs.

Token Utility

BGDX will power various use cases within our ecosystem:

- In-game currency for Web3 games
- Medium of exchange for NFT marketplace
- Staking for rewards and governance
- Voting in DAO proposals

Tokenomics

Total Supply: 10,000,000 BGDX

- 50% Presale (5,000,000 BGDX)
- 25.65% Liquidity
- 5% Team (Locked)
- 19.35% NFT/Game Development

Unlocked: 24.35% (5% Team + 19.35% Development)

Roadmap

Q2 2025 - Smart contract development, website launch, presale start

Q3 2025 - DEX listing, marketing, CMC/CG applications

Q4 2025 - NFT and game prototype, partnerships

Baghdad Token (BGDX) - Whitepaper

Q1 2026 - NFT launch, game beta, staking, NFT marketplace

Beyond - DAO, multichain expansion, CEX listings

Team & Security

The BGDX team includes experienced developers, game designers, and marketing strategists.

Security features:

- Liquidity locked via smart contracts
- Team tokens time-locked
- KYC and audit processes planned

Legal Disclaimer

BGDX is a utility token and not intended as a financial security. Investment in cryptocurrency involves risk, including loss of capital. Always conduct your own research before investing.
